

Washington Dulles Airport Concourse C - D - Level B2

This map illustrates the layout of Concourse C and D at Level B2 of Washington Dulles Airport. The concourses are represented by large grey rectangular blocks. A central vertical corridor provides access to the gates. Key features include:

- Gates:** Gates 1 through 12 are located in the central corridor. Gates 13 through 20 are located in the right-hand concourse (D).
- Escalators:** Escalators are located at the bottom of the central corridor and at the bottom of the right-hand concourse.
- Stairs:** Stairs are located at the bottom of the central corridor.
- Aerotrains:** Aerotrains are located at the bottom of the central corridor and at the bottom of the right-hand concourse.

The map is oriented with the concourses running horizontally. The central corridor is the main access point for passengers. The right-hand concourse (D) contains a larger number of gates (13-20) compared to the left-hand concourse (C, gates 1-12).
